BESPOKE AWNINGS & BLINDS

Family owned James Robertshaw has over 160 years experience of designing, manufacturing and installing bespoke awnings, coverings and blinds for the specific needs of operators in the leisure & hospitality, blind & curtain trade and residential sectors.

About Us.

Our story began back in 1860, when Mr James Robertshaw of Collyhurst, Manchester set up shop manufacturing traditional box shop awnings, complete with hand-carved woodwork. Added to this were metal roller blinds and other companion components, all fabricated on-site, beginning an unbroken trading history spanning an incredible seventeen decades, three centuries and two millennia.

During those first one hundred years, JR cemented its company status with a number of patents, including its famous 'Spring Roller' design in 1908. That commitment to innovation and technical advancement remained at the heart of the organisation ever since

From the Victorian age of the Industrial Revolution, through two World Wars and more than a few depressions, the company survived and thrived. It re-located from its original factory in Collyhurst and settled in a historical spinning mill in Farnworth.

The business stayed within the Robertshaw family until the death of James' grandson, William Lancelot Robertshaw in 1960 and was purchased by then Production Manager Arthur Harrison. It is then that the modern story of JR really begins.

In 1978, the company was taken over by 25 year old Nigel Sharrock, who would carry the JR brand from out of its Victorian history and into the modern world. For nearly forty years, Nigel continually strove to improve products, processes and service that JR is renowned for.

After Nigel's retirement in 2016, JR is still a family owned and managed business with Nigel's wife, Lesley and son Matthew, joining him sitting on the board of directors. In 2010 after 50 years at its Farnworth home, JR re-located again to its current, modern facilities and headquarters at Horwich, Bolton

All products are designed, manufactured and showcased within our current home and Customer Centre. With a wide reaching client base ranging from trade sub-dealers; independent bars and national hospitality brands; architects, contractors, residential, education and health-care; James Robertshaw has the creativity, expertise and knowledge to make a visible difference to any business or home.

James Robertshaw. We don't just find the solution, we create it.

Mobile Technicians

With an average of 145 wet days a year in the UK, it is easy to see why a mobile technician's working day is often disrupted, leading to costly downtime and inconvenience to the client.

With The Anexe Pro Technician or Pro 1 awning systems, continuous working is made easy with an undercover space erected in minutes. A fast return on your investment is achieved, as well as a safer and more comfortable working environment. Branding adds awareness and can create business opportunities to increase revenue to help your business grow.

With the Anexe solution, you can confidently book your work knowing you can complete it wherever you are, whatever the weather. You can even add side or front protection sheets for partial or complete cover.

Pro Technician or Pro 1 Technician awning systems are available for most van roof rack mounting points, or to your own roof bars.

Events & Exhibitions

When out at events and functions, the Anexe Pro 1 protects outworkers, field staff and projects your corporate image. Available as roof only, or with fully enclosed side and front panels to make a full or partial enclosure, the Anexe is fast to set up and reliable.

Cassette box, arms and components are available in a variety of hardware colours at no extra cost - white or cream in powder coat, dark anthracite textured coat, silver anodised or choose other special RAL powder coated colours and even metallic paint colours are possible.

The most compact cassettes, at only 220mm x 147mm (200mm x 140mm also available), provide the largest projections up to 3,750mm. Totally bespoke widths, made to your millimetre perfect requirement, from 1,400mm up to 7,000mm widths are available. Larger awnings, which have 3 spring arms, add additional security and strength.

Available as curved or flat fronted cassette design, they can have either bolt on or built in design wall or roof fixation. The use of stainless steel on all bolted components ensures life span in all environments.

Detachable custom designed side and front walls enclose the Anexe Pro 1 with choice of window panels, privacy panels, front openings and zipped door access, which connects easily with special profiles to the awning and vehicle. Vehicle skirting and wheel arch panelling is also available.

Our hand selected Italian fabric textiles to M2 Flame Retardant standard are of the highest quality and lacquered for longevity in 30 colours offering matt or satin vinyls. Guaranteed not to fade, rot or crack no matter what the environment. Construction using the latest high frequency welding techniques minimises the use of sewing therefore increases the waterproofness of joints.

VEHICLE AWNINGS

Motorsports

For the motorsport enthusiast, be it competing or for your favourite outdoor pursuit, the Anexe is designed and built for your support vehicles. From motorhomes to race trucks, trailers and vans, we have the perfect Anexe vehicle awning for you.

Operation is via manual crank or built in motor with special start stop technology via switch or remote control including manual over ride function.

Bright, high quality 24 volt LED lighting can be fully integrated inside the folding spring arms with transformer and transmitter to a remote control handset ensures light is omitted across the projection, under the awning just where you need it.

Custom branding using modern UV printing techniques is optional or you may choose traditional flat truck side quality CAD cut decals.

Hospitality & Catering

No matter your mobile food business, we can offer the perfect trailer awning for your vehicle.

Installing a catering trailer awning is a great way to attract customers. Whether you're catering at summer events or film sets, a vehicle awning will keep your customers dry, whilst offering shade to keep the workspace cool so that your dishes don't spoil. It's also a great way to extend your space and offer your customers a sheltered area to enjoy your culinary offerings!

Adding an awning to your mobile food truck can also help you stand out from the crowd as we can create custom branded graphics with your logo, messaging and brand colours. With a choice of operation by crank handle or motor, your next event could be your best yet.

VEHICLE AWNINGS

Fleet Vehicles

Our commercial van awnings are ideal for businesses that operate a fleet of vehicles that work on the road.

Easy to use, attractive and durable, they provide a space for your employees and customers to use that is protected from the elements so that you can continue with your operations whatever the weather or location. We also offer optional side enclosures in case your work requires additional privacy or protection.

With a choice of up to 30 PVC fabric colours, 3 cassette colours, as well as a range of optional extras including integrated lighting and motor operation, our awnings provide the perfect extra space sheltered from the wind, rain and sun. Logos, messaging and your brand colours added to the awning will ensure that your brand is showcased in the best possible way.

Motorhomes

Choose Anexe Pro 1 for your motorhome - a class above the rest. 21st century awning design with optional motor operation and integrated LED lighting is sure to compliment the finest of motorhomes. Extend your living and work space, or create a social area to relax or work on bikes.

You can choose from custom built awning cassettes and components in a choice of standard hardware colours, optional tailored sides and front enclosures with personalisation such as window and vehicle skirting. For the constructor, we offer a built-in system recessed in the side if preferred.

Equestrian

When out and about at events, you will be exposed to the elements. Sun protection and rain shelter are important for daytime and evenings for both horse and rider. With an Anexe awning, you have the ability to quickly and easily extend the shelter space at the touch of a button or via a remote control. You can use in a free supporting format or use the support legs for stronger weather conditions.

You can extend your living space, to provide an area to socialise and relax with optional sides and front enclosures.

Your Anexe Pro 1 can be supplied as built in, roof mounted or with standard surface mounted fixing options.

Emergency Services

If Police, Fire or Rescue is your field, when an incident occurs you need to rely on the best equipment available.

Anexe Pro 1 is the safe, fast and reliable awning choice with force 5/6 capability. It can be tailored to many vehicle types from containers, van conversions and special bodies.

Also ideal for outreach and event use, our awnings are available fully branded and colour matched if required. Flame retardant fabrics are standard with high quality vinyl fabrics in 30 colours. We work with specialist vehicle converters and fleet operators to deliver complete field service solutions.

FEATURES, OPTIONS, LIGHTING & MOTORS

Each awning is custom built in our UK factory by craftspeople using high quality components. Manual crank or in built motor operation with special start stop technology via switch or remote control including manual over ride function are just some of the options available.

Bright high quality 24volt LED lighting fully integrated inside the folding spring arms with transformer and transmitter to remote control handset ensures light is omitted across the projection under the awning just where you need it.

Custom branding using modern UV printing techniques is optional or you may choose traditional flat truck side quality CAD cut decals.

VEHICLE AWNINGS

Branding

Bring your awning to life with a choice of graphic options. Using either print or traditional CAD vinyls if required. We can provide fully colour matched roof and sides sheets.

Good relationships are at our core. So when you decide to specify and order a James Robertshaw awning for your vehicle, you will have a dedicated friendly sales person from the outset who will explain everything from start to finish and who will always be on hand for whatever you need. It's the least we can do for you.
